**OBLIGATION DISCLOSURES 2018**

## MARKET DATA TRANSPARENCY OBLIGATIONS

Article 11, “Transparency obligation”, of Commission Delegated Regulation (EU) 2017/567 of 18 May 2016, as published in the Official Journal of the European Union on 31 March 2017, requires that “Market operators and investment firms operating a trading venue and systematic internalisers shall disclose the price and other terms and conditions for the provision of the market data in a manner which is easily accessible to the public” and makes requirements on the contents of these disclosure.

This document covers all of the relevant disclosures for NEX Exchange in connection with such transparency obligation, with the exception of current price lists and related terms and conditions, which are made available [here](#) under the ‘Data Vendors’ tab.

All data generated from the market segments operated by NEX Exchange is collated before being distributed via vendors or directly to end-users, as detailed in the [NEX Exchange Market Data Licence](#) and [Data Policy](#).

## MARKET DATA PRICING

The current [NEX Exchange Market Data Fee Schedule](#) was adopted in January 2013.

The pricing is based on the cost of producing and disseminating market data.

NEX Exchange is in the growth phase of its development and as such it is not yet of a size where it operates a separate division for the production and dissemination of market data. The market data services and other services offered by NEX Exchange are inter-dependant on the operations and costs of NEX Exchange as a whole.

For the purposes of Article 13(1) of Regulation (EU) No 600/2014, direct, variable costs and fixed costs of NEX Exchange which are attributed to the costs of producing and disseminating data are apportioned on the basis of the proportion of revenue received by NEX Exchange for data services to total revenue over the previous financial year.
